Hachioji cemetery has the shortest history among the Metropolitan cemeteries, and was established in 1971. The cemetery is covered in lawn and has a Western style. There is a 100 meter difference between the highest and lowest point of the park, and Tokyo Sky Tree can be seen on a clear sunny day. The park is open and quiet.

There is a spot that visitors can see from the mountains to the valley, and the blossoms in spring and green in summer is so beautiful.

Visitors can enjoy cherry blossoms (someiyoshini, yamazakura, kasumizakura) in spring; followed by red horsechestnut, hydrangea, silktree albizzia and golden-rayed lily; maple, katsura tree and dog wood in autumn. Autumnal leaves are beautiful in the season.
