Take the Seibu bus towards Kichijoji/Mitaka from Houya Station (Seibu Ikebukuro line) and get off at Sendagaya Jutaku

Higashi-Fushimi Park is a new park located in the eastern part of Nishi-Tokyo city. It is blessed with green and water as it is located next to the gorgeous grove of Higashi-Fushimi Inari Jinja Shrine that is registered as a green conservation area, with the Shakujii River flowing on the south.

With further development of the park, it will become a park for enjoying recreational activities and a haven of the area in the times of disaster.

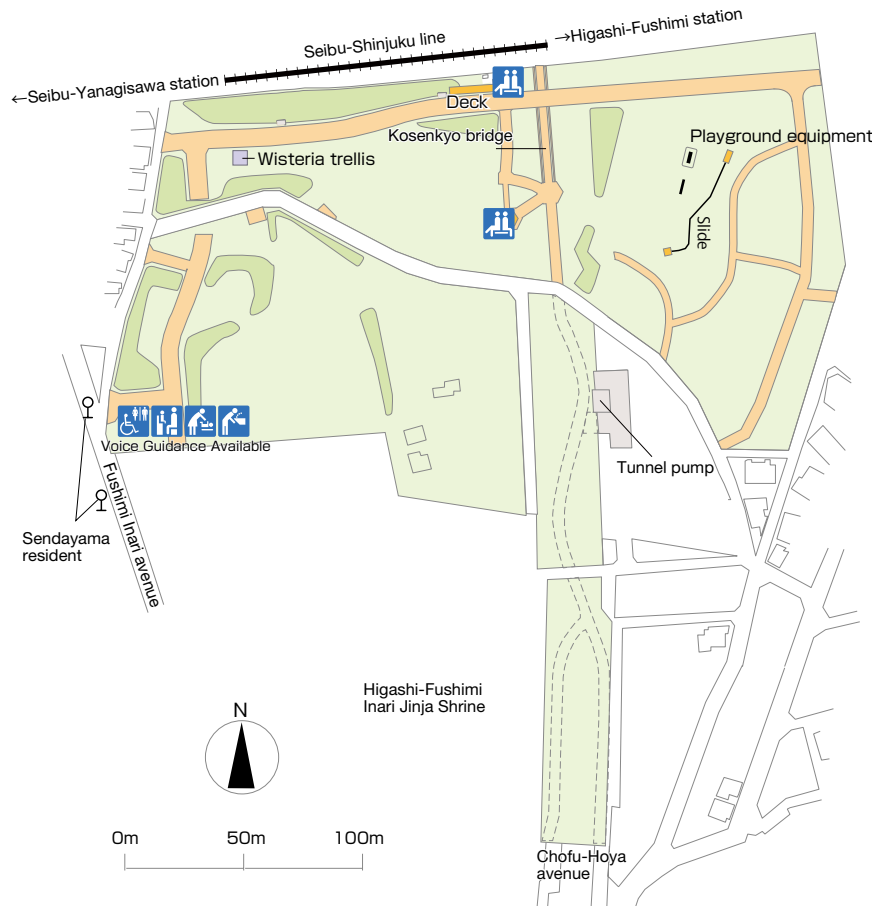

Multi-purpose field

### Orange osmanthus in the park

There is an orange osmanthus tree in the park whose height is 12m. It is also selected as one of the famous 50 trees of Nishi-Tokyo city and gives us a sight-for-sore-eyes with the flowers and its fragrance during autumn.
